

## Can Tab Collection Updates:

So far Village students and families have collected about **12,800 can tabs** for *Ronald McDonald House Charities of New Brunswick!*

The tabs are recycled and then the money is used to help families with sick children stay at the RMH while their children are getting care from one of the local hospitals.

Lets keep this initiative to recycle & build connections with the community going by continuing to collect more tabs. Spread the word!

We are trying to collect enough to be a part of the *Collect-A-Million-Tabs Club!* This work will continue each year so there is never a deadline.

Thank you to all of you that are collecting them and spreading the word to help those in the local community.
