## **Town Center Elementary School Weekly Update**

### **A Message From the Town Center Administration**

Dear Parents & Guardians,

As we continue to embark on this journey together, we believe that among the most important lessons we can teach our children is the value of perseverance, resilience, and grit when faced with challenges in life, and we need not look any further than our current circumstances to find the perfect context for this valuable learning opportunity. There is no success without failure; there is no triumph without struggle; and there is no better way to build strength of character than persevering through challenging times and emerging on the other side to know that we overcame those challenges. Thank you for modeling patience, resilience, and perseverance; your children notice and are growing as a result. Please know that you are not in this alone; we remain committed to supporting students and their families, and we are available as partners with you during this situation and, of course, even after it's long behind us.

As Dr. Aderhold shared last week, the district is working on a plan for closing out the school year. Instruction will continue to be provided via the online platforms with which students have become familiar, and teachers will continue to foster connection and social-emotional learning via synchronous (live) opportunities for students to engage with their teachers and with one another. Additionally, we are working on plans for making the most of current circumstances in order to provide many of the events and traditions that typically mark the conclusion of the school year. In the coming weeks, we will share information regarding virtual orientations for parents and students transitioning to a new school in September, virtual Field Day experiences for students, end-of-year recognitions for our students moving on to new schools, and procedures for the safe collection of district materials and distribution of students' belongings left in classrooms. While these events will certainly look different this year, we look forward to finding ways to capture the spirit of tradition and celebration that all of our students deserve.

As a reminder, we continue to be here to support you and want to assist you as needed. We have resources available to families in need.

- Families who qualify for free or reduced meals are being supported by bi-monthly food distribution. If your circumstances have changed and you need assistance in this area, please contact either the guidance counselor, nurse or building administrator.
- Technology is another resource available. Families who are having difficulty with their school-issued device or for those families who need access to a device for their child, please complete this [form](#). Once you complete this form, you may report to High School North on Tuesday or Thursday between 11 a.m. and 2 p.m. to get the tech support or sign out a device. Please note: The form must be completed prior to going to High School North. You will not receive a notification to report to the high school; please go to High School North on the next Tuesday or Thursday following submission of the form.
- In addition to the curriculum that is being provided virtually, we also support any student who is struggling with the circumstances and loss of being at school with peers and teachers. If your child is experiencing difficulty, please reach out to his/her teacher, guidance counselor, CST, or building administrator for support.

Please know that we continue to miss seeing your children daily, and we are here to support your families in any way possible during these unprecedented times. Please don't hesitate to reach out.

Warm regards,  
Janet Bowes and Renee Osterbye
