School

The 2020-21 school year began as no other in a world of hybrid and virtual learning. There have been many challenges getting to this point with scheduling, transportation and other details. As you may have seen in the first few days, we have adjusted entrance and dismissal protocols to maintain social distancing for the safety of our students. Please keep in mind that second week hybrid students will arrive at our school building for the first time next week and they will need time to adjust. We appreciate your patience as we navigate these unique times.

We remain focused on our efforts to support individual learners and recognize the challenges that occurred in the first days with the routines needed to engage in virtual environments. It is critical that you and your child maintain communication with the classroom teacher. Please refer to the letters teachers sent home at the opening of school for links to classes and protocols for students to participate in virtual environments.

To best guide you in assisting your child, the district curriculum and instruction team has provided links to resources that you may find useful.

Our school benefits from a supportive PTA. We appreciate their support on opening days and throughout the summer to assist with the many tasks for the opening of schools and to support a warm welcome for all. If you have not already done so, please consider joining our PTA this year. We would love to see 100% participation. [Join the TCPTA](#)
