

Worker's Compensation Procedures

If you are injured on the job and need medical treatment you MUST call (609) 543-3377

Report your injury to your immediate supervisor and then proceed to the school nurse for evaluation/treatment. Employees who are not in a specific school building with a nurse available will report injuries to the nurse at the school site closest to them. If you travel and need immediate assistance report to the closest school nurses office.

If treatment beyond first aid is needed the School Nurse or Supervisor will tell the employee to call **NJSIG** at (609) 543-3377. The employee must be prepared to give all detailed information to the Qual-Lynx representative.

Use of a medical provider within the **Qual-Lynx** network is required. Please see the list of preferred providers on the following page.

The following information must be given to the medical provider:

- The name of the Managed care provider **Qual-Lynx**
- West Windsor-Plainsboro Regional School District as place of employment
- Your injury is a work related

A copy of all doctors' notes, medical bills, etc., should be forwarded to:
QualCare, Inc., PO Box 309, Piscataway, NJ 08855-0309

If the injury is for reporting purposes only then the "worker's compensation incident report" is required to be filled in and filed with the Human Resources department.
